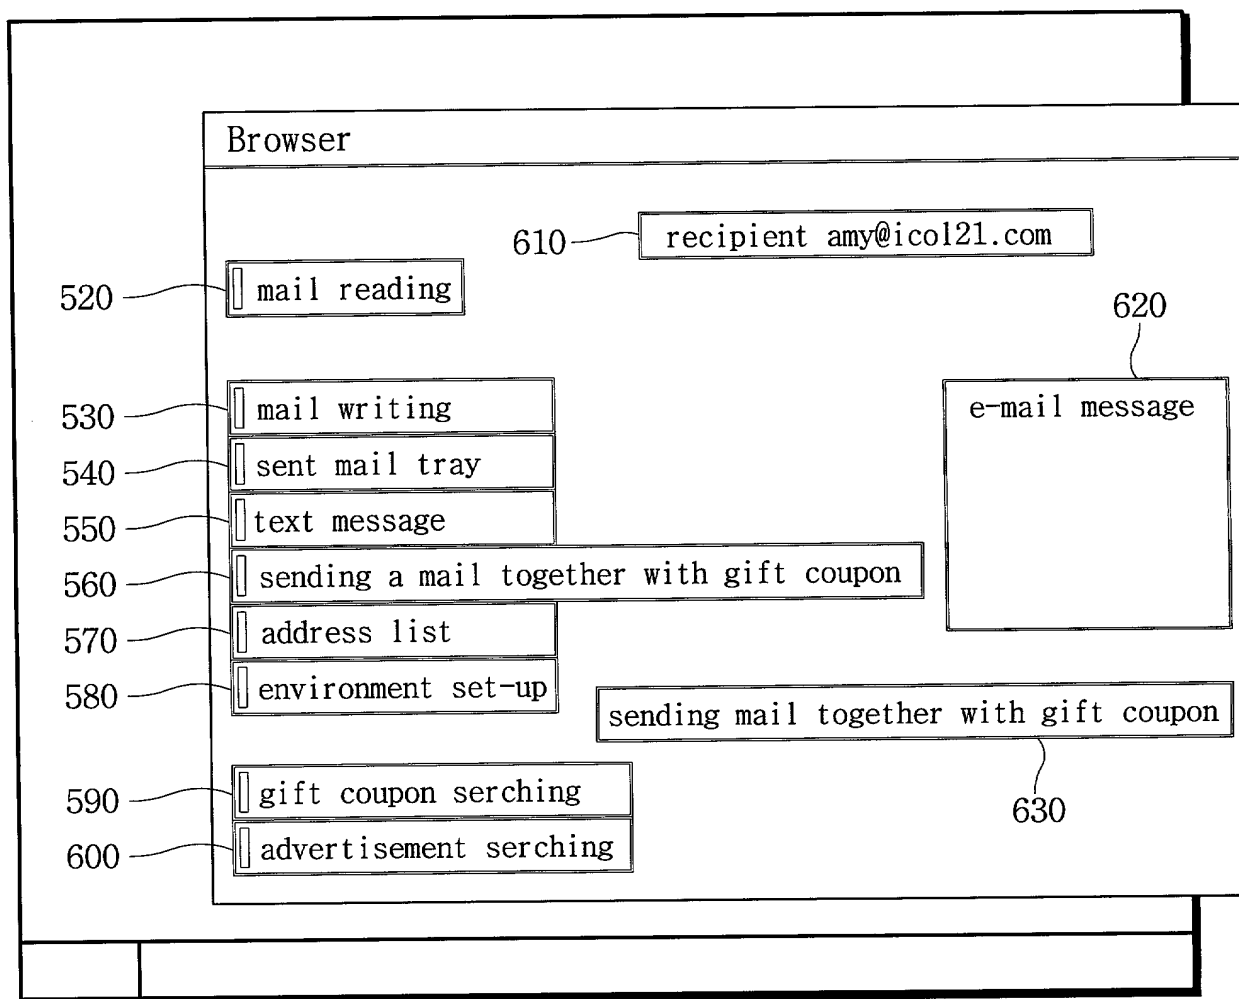

FIG.3C

FIG. 3C is a block diagram of a user interface for a browser. The interface includes a main window with a title bar labeled "Browser". Inside the window, there is a list of functions: "mail reading", "mail writing", "sent mail tray", "text message", "sending a mail together with gift coupon", "address list", "environment set-up", "gift coupon serching", and "advertisement serching". A separate window titled "banner advertisement window" is shown overlapping the main window. This window contains a grid of eight rectangular boxes arranged in two columns and four rows. A reference numeral "640" points to the "banner advertisement window".

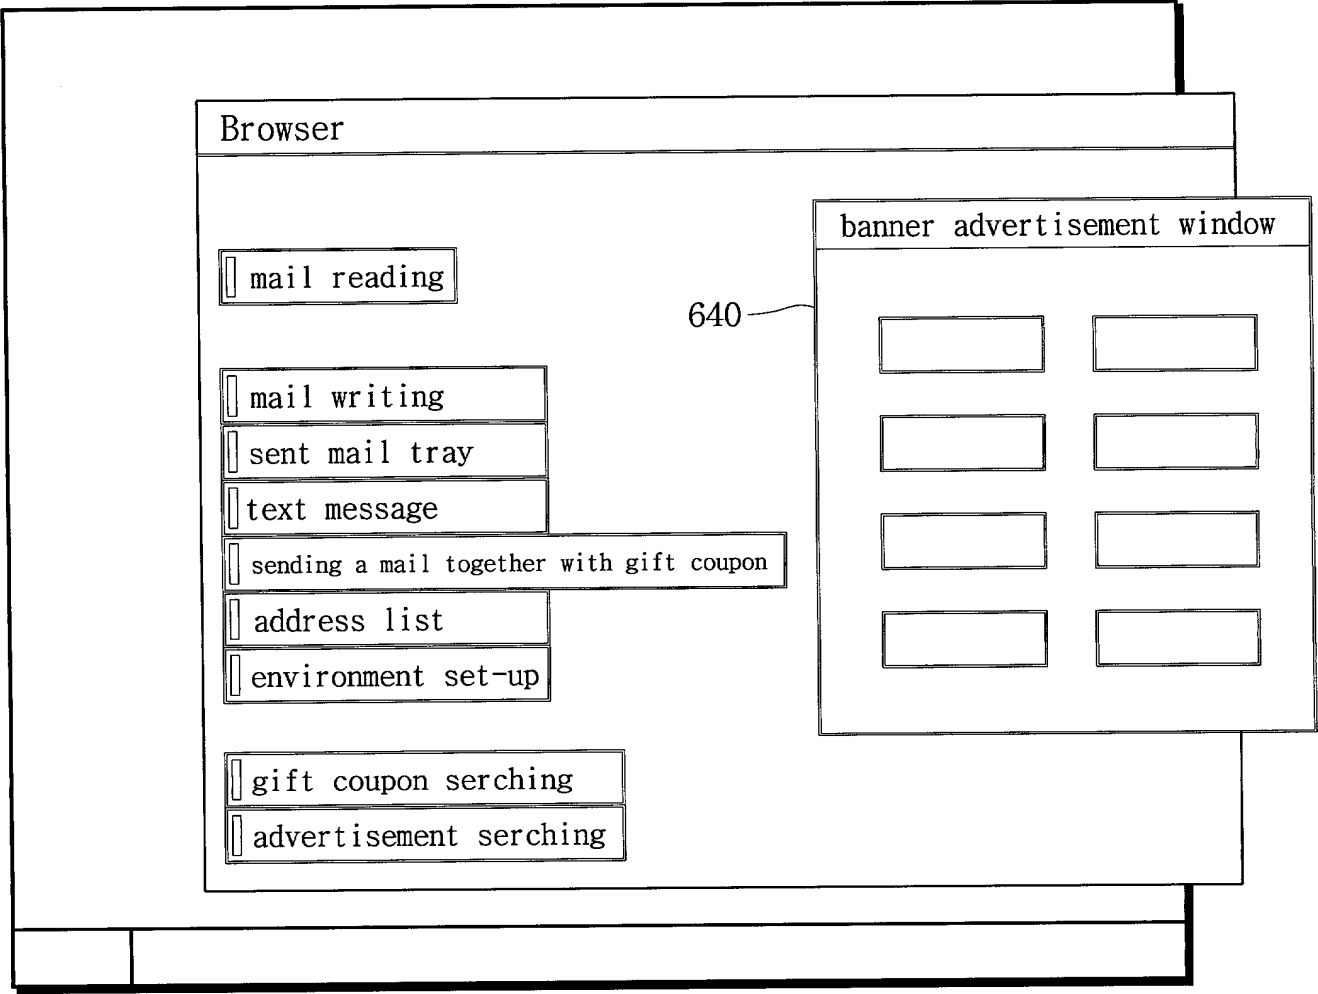

FIG.3D

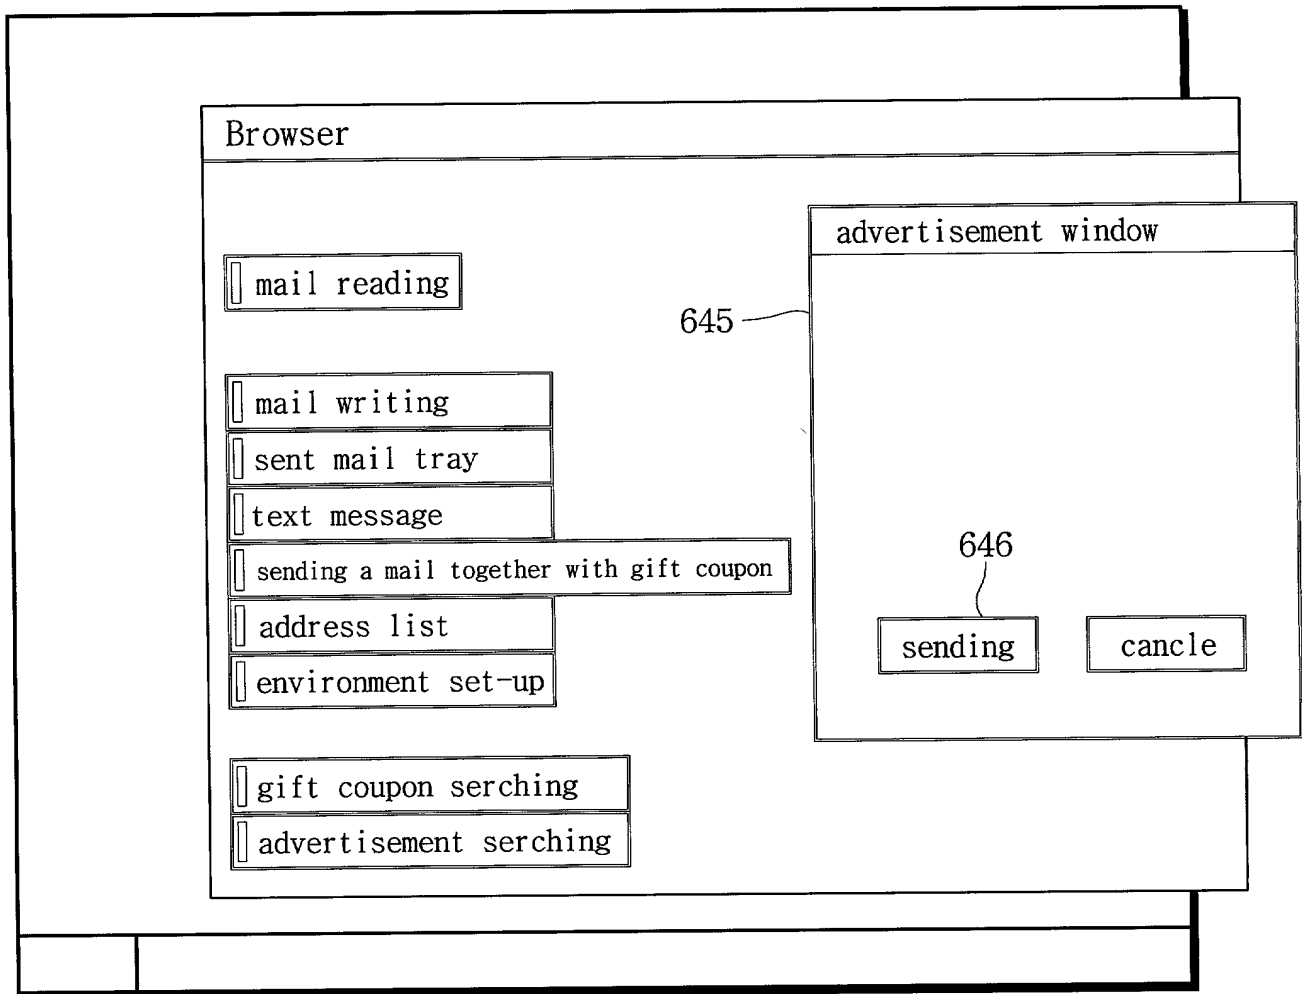

FIG.3E

FIG. 3E is a block diagram of a browser window 650 showing a list of mail-related functions. The functions are: mail reading, mail writing, sent mail tray, text message, sending a mail together with gift coupon, address list, environment set-up, gift coupon serching, and advertisement serching. A confirmation message "123456 mail has been successfully transmitted" is displayed on the right side of the browser window.

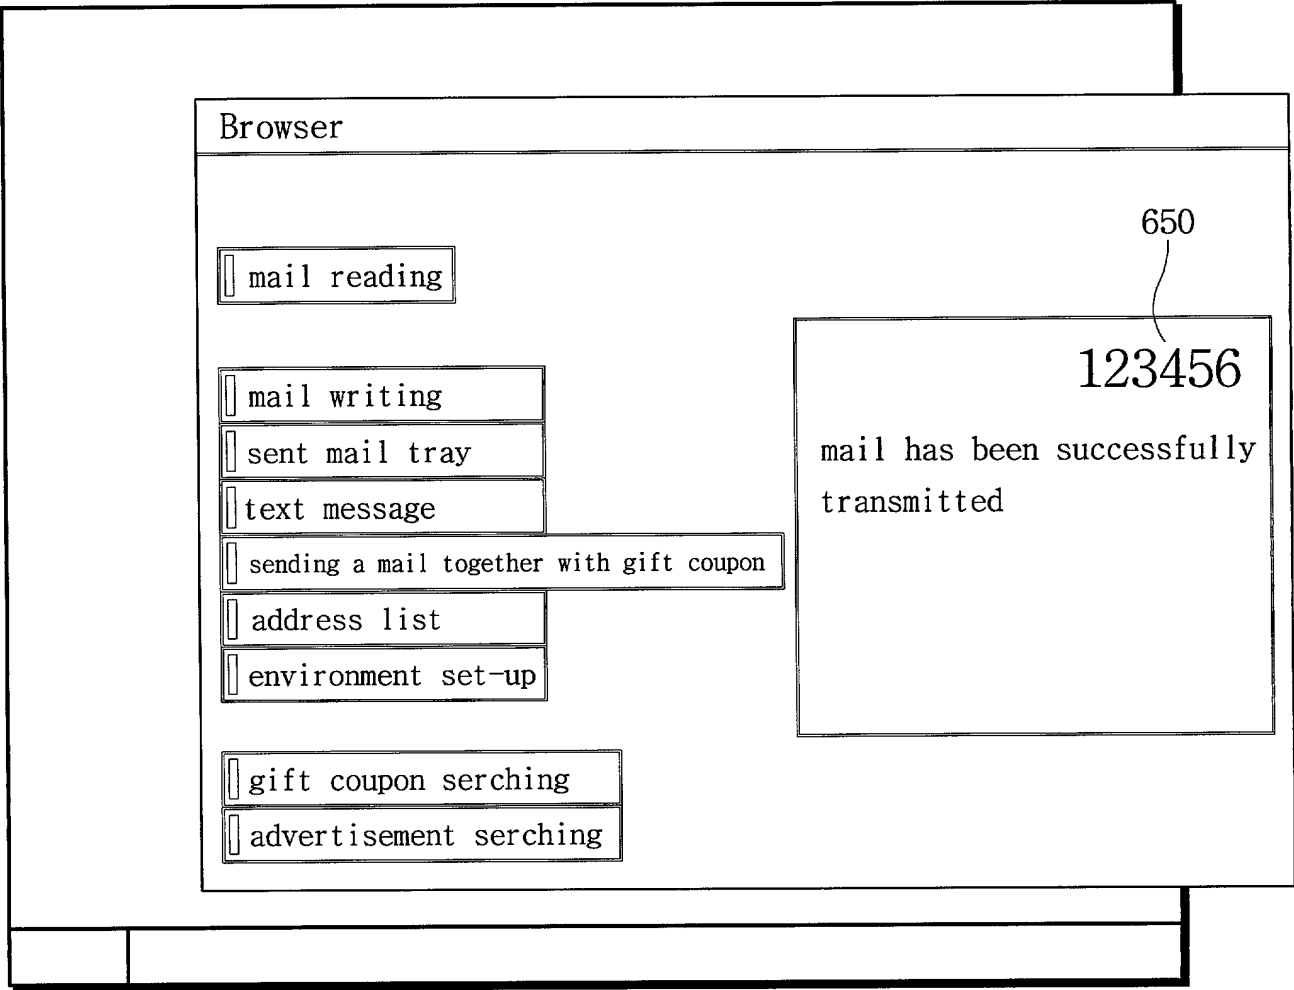

FIG.3F

FIG. 3F is a schematic diagram of a web browser window displaying a received mail tray. The web browser window includes a title bar, a menu bar, and a toolbar. The received mail tray is displayed within the web browser window and includes a list of received mail messages. The received mail tray is labeled 660. The received mail tray includes a list of received mail messages. The received mail messages are displayed in a table format. The table has two columns: "Person who sent a mail" and "Title". The first row of the table shows a received mail message from "e-mail message" with the title "gift coupon lottery number 123456". The received mail message is labeled 650.
